Kathleen L. McChesney
Special Agent in Charge
FBI Chicago
219 S. Dearborn St. - #905
Chicago, IL 60604

Dear Ms. McChesney:

Recently a copy of charges that were reported to President George W. Bush against Federal Judge Frank H. Easterbrook for his actions in treason against the U.S. Constitution and against the U.S. Government, Misprision of Treason, neglect of duty, corruption, and defrauding the government was sent to you.

These actions originally arose out of the unlawful actions in the Circuit Court of Cook County, which Federal Judge Easterbrook attempted to cover up.

On March 24, 1993 I met with FBI special agent Wandy Denny relative to the unlawful actions of the Circuit Court of Cook County and especially Judge Philip S. Lieb. She and I reviewed the court files in cases no. 90-D-2724 and 91-D-5122 in Room 802 of the Richard J. Daley Center, and she agreed after inspection of the files that court records were missing.

We corresponded several times since, but apparently the FBI took no action. By their failure to take any action, they allowed other judges, both state and Federal, to participate in these unlawful actions.

I am enclosing copies of some of my correspondence with your agent Wandy Denny.

Why did the Chicago office of the FBI, which had knowledge of what was occurring in the Circuit Court of Cook County as long ago as 1993, connive with the Illinois judges and look the other way? Why did the Chicago office of the FBI participate in this coverup?

Because we believe that the Chicago office of the FBI has been involved in this coverup, we are immediately posting this letter and supporting documents on the Internet.

Yours truly,

Eugene Alpern
